All brush attachments induce chemical through use of a low-pressure chemical injector system

# Floor Care, Round Cleaner Accessories:

## Round Cleaners

Round cleaners provide fantastic cleaning results and offer great splash-back protection for floor, wall, roof or surface cleaning.

Round Cleaners on this page are not compatible for use with a 7/122 (TS) - what works is our Round Cleaner Light & either a quick-release or M22 threaded adapter to connect it to your gun.

Order no.: 41870+12436 to fit QR or +12435 to fit M22

Order No. 12424-PD3008 & 12424-PD3011 (1,000 mm)	RRP Incl. VAT	£ 370.79
--	---------------	----------

A Vario jet offers flexibility of adjustment from a pencil jet to a deflected standard fan spray. Being deflected, this spray isn't as 'powerful' as a flat/knife jet nozzle. Flat jet nozzles (D) offer a fixed spray jet, Kranzle Knife jet nozzles (M) offer a deeper clean with a more concise spray over the same spray area. Flat jet and Kranzle Knife jet nozzles are available to order from a narrow 0° pencil jet to a wide 40° or even 65° fan spray.

### LONG LANCE WITHOUT CHEMICAL REG.

1,000 mm thermo-grip lance with Knife-Jet or Flat-Jet nozzle. D 12  
Order no. then nozzle size: E.G.: 12420-M20028; 12420-D4005

RRP Excl. VAT £ 50.95

Order No. 411568-042

RRP Incl. VAT £ 61.14

Dirtkiller and Turbokiller lances create a very powerful, deeper clean with a more concise spray over a small spray area effectively increasing the impact. The spinning, rotating jet still covers a larger area in a faster time than using a point jet nozzle and this too adds an aggressive ripping force.

### SPLASH GUARD

Helps guard against splash back spray

RRP Excl. VAT £ 48.95

Order No. 132600

RRP Incl. VAT £ 58.74

### LANCE GRIP KIT INC SCREWS

RRP Excl. VAT £ 15.95

Order No. 124061

RRP Incl. VAT £ 19.14

### DIRTKILLER LANCE

500 mm lance with aggressive, spinning nozzle.

Order no. then nozzle size: E.G.: 41570-028; 41570-042

Dirtkiller (suits up to 15 ltrs/min flow)

RRP Excl. VAT £ 84.95

Order No. 41570-nozzle

RRP Incl. VAT £ 101.94

600 mm Dirtkiller lance for 599

RRP Excl. VAT £ 100.95

Order No. 46150

RRP Incl. VAT £ 121.14

### TURBOKILLER LANCE

600 mm lance with aggressive, spinning nozzle.

Turbokiller lance 045

RRP Excl. VAT £ 136.95

Order No. 410723-045

RRP Incl. VAT £ 164.34

Turbokiller lance 055

RRP Excl. VAT £ 136.95

Order No. 410724-055

RRP Incl. VAT £ 164.34

Turbokiller lance 07

RRP Excl. VAT £ 136.95

Order No. 410727-07

RRP Incl. VAT £ 164.34

### STUB DIRTKILLER LANCE

Short 'stub' Dirtkiller with aggressive, spinning nozzle.

Order no. then nozzle size: E.G.: 41571-028; 41571-042

Short 'stub' Dirtkiller\*\*

RRP Excl. VAT £ 84.95

Order No. 41571-nozzle

RRP Incl. VAT £ 101.94

Hand Assembled, Built In Germany - Quality Assurance

## TECHNICAL ADVANTAGES :- WHAT MAKES KRANZLE STAND OUT...

### **PUMP HEAD MADE OF SPECIAL BRASS**

Deterioration of the pump caused by corrosion is impossible as a result of selecting superior quality materials. The water-conducting components of the pump head and safety devices are made of stainless steel and special brass to ensure long service life.

### **DURABLE HIGH PERFORMANCE MOTOR**

Large dimensioned durable induction motors in the usual Kranzle high quality for extreme durability and highest performance. High-pressure cleaners with slow-running 4-pole electrical motors (1,400 rpm) work at lower speeds to reduce start-up currents, quieter noise levels as well as reduced wear and benefit from being able to suck water from up to a height of 2.5 M. (HD 7/122: 1.5 M)

### **BYPASS OPERATION**

Kranzle high-pressure cleaners switch over to a pressure reduced bypass operation as soon as the trigger gun is released. The water is circulated with a residual pressure of approx. 10 bar. Models with the Total-Stop system also switch the motor off at this point helping to extend the service life of some components and offer energy savings.

### **STAINLESS STEEL, CERAMIC COATED PLUNGERS (PISTONS)**

Every Kranzle high-pressure cleaner is made with three ceramic coated stainless steel plungers, considerably increasing longevity of the device. Stainless steel provides good thermal conductivity, unified with the positive characteristics of extremely low-wearing ceramic.

### **CONTINUOUSLY ADJUSTABLE OPERATING PRESSURE**

All professional series Kranzle high-pressure cleaners are equipped with a large, clearly visible stainless steel pressure gauge. The operating pressure and the amount of water being sprayed can be exactly adjusted to suit any cleaning task.

### **LEAKAGE RETURN SYSTEM**

A water cushion between the high-pressure seals on the plungers prevents any sucked in air from reaching the pump chamber. An air gap between the water seals and oil seals prevents mixing/contamination of oil and water, furthermore a drainage chamber directs any leakage away due to worn seals.
